

# Corporate Team Building

**TrendSetters**  
#ThinkOutsideTheBox

# Introduction

Corporate Picnics / Off sites are a great way of bonding and helps in creating camaraderie between colleagues in a healthy fun filled atmosphere. What starts out as a fun encounter, quickly throws up a lot of questions?????

- What do we do to keep everyone engaged?
- How do we manage the activity?
- Who will keep them engaged?

Here is where **TrendSetters** steps in. We are a professionally managed team which for over 14 years has been specializing in teambuilding activities exclusively for corporates. Where we conceptualize plan and execute a programme as per the clients needs and budget.

**All you have to do is select the date and we do the rest.**

# Adding Value

You may want us to project and emphasize on certain values. Apart from that we believe in incorporating some **core values** in the activities that we conduct

- Teamwork
- Respect for each other
- Ethics

And most importantly making the experience **fun** and **memorable**.

**“The greatest ability one can possess is to bring a smile on another persons face.”**

Following is a glimpse of few activities that we have conducted in the past.

Generally as a policy we do not give out the details of the activity in details.

Nevertheless as per our experience we have learnt that its... **not what you do but how you do it that matters.**

The idea is to get maximum participation across all age groups and temperament.

Hence Depending on

- the allotted time
- the venue layout and
- the amount of participants

We uniquely divide them into equal groups where they participate in specially designed games with a view on **team building** and **bonding** which is

- **Competitive** to keep it relevant.
- **Entertaining** to make it fun.
- **Personalized** to add value.
